Sea Sanctuary was set up in 2006 to support the needs of the Cornish community and helps anyone who is experiencing poor mental health or wishes to improve their wellbeing. Our service provides a learning experience with outstanding results, from our sail training to our land-based services.

We seek to address the very real issue of mental health well-being for those who most need it

"Waters edge is such a special place, it is so far removed from a clinical, grey, soul-less unit where things can seem hopeless. Quite the contrary. Looking out across the tidal water, ever changing, ever-renewed, there is real hope" Quote from client
